Skills

Languages: C, C++, Kotlin, HTML, JavaScript, ReactJS, NodeJS
Technologies & Tools: Android Studio, VScode, Git, Github, Linux
Cloud / Database: MongoDB, Firebase, Relational Database (MySQL)

Education

KIIT UNIVERSITY, BHUBANESWAR   Expected graduation date: Jun. 2025
Bachelor of Technology in Information Technology   *CGPA: 7.28*
Relevant Courses: Operating System, Database Management System, Data structures and algorithms

Experience

CodeClause   1 Jul- 6 Aug
Android Developer Intern   *View Project*

- Created the **Login Flow App** to provide a user-friendly authentication and authorization system through **Firebase**.
- Showcased proficiency in modern Android development with **MVVM** architecture, **Kotlin**, and Jetpack Compose.

Projects

Padosan Restaurant   *View Website   View Code*

- Developed and launched the Padosan Restaurant website for client using **HTML**, **CSS**, **JavaScript**, and **ReactJS**, showcasing the restaurant's offerings and enhancing its online presence.
- Incorporated features such as Gallery, Menu, Contact Us, and About screens, while also implementing a user-friendly ordering system, enabling customers to conveniently **place orders** directly through the website.

Sorting Visualizer   *View Website   View Code*

- Created a comprehensive visualization Website using **HTML**, **CSS**, and **Javascript** to illustrate and analyze various sorting algorithms like Merge, Selection, Heap, Quick and Bubble Sort.
- Implemented interactive visual representations providing a clear demonstration of algorithmic efficiency and performance.

Personal Portfolio   *View Website   View Code*

- Created a personal portfolio website using **HTML**, **CSS**, and **Javascript**
- Implemented responsive design principles for optimal viewing across devices. Included sections for About, projects, skills, articles, and contact information.
